A Vision For The Future Of Our Youth

Newburyport is opening a state-of-the-art Recreation & Youth Center, purpose-built to support children, teens, and families for generations.

This Center reflects our shared commitment to community, wellness, and opportunity.

The City Built The Foundation

Photo Credit: EGA Architects

The City of Newburyport has funded an \$8.3 million facility. This cost covers the structure and essential infrastructure.

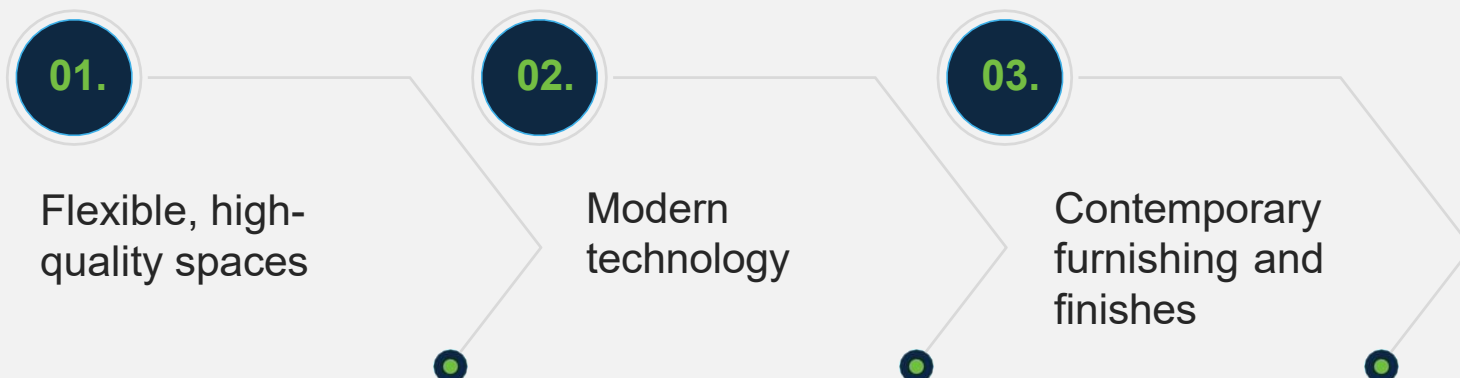

What happens inside the building and how it serves youth now depends on community partnership.

Why Private **Support Matters**

Private giving transforms a building into a living community hub.

Photo Credit: EGA Architects

Public funding does not fully cover the elements that make a youth and recreation center exceptional..

A Legacy Community Project

This campaign is about shaping experiences for decades to come.

Each space we equip and every program we support adds to Newburyport's legacy of community. It reflects a commitment to youth built on empowerment, prevention, and resilience.

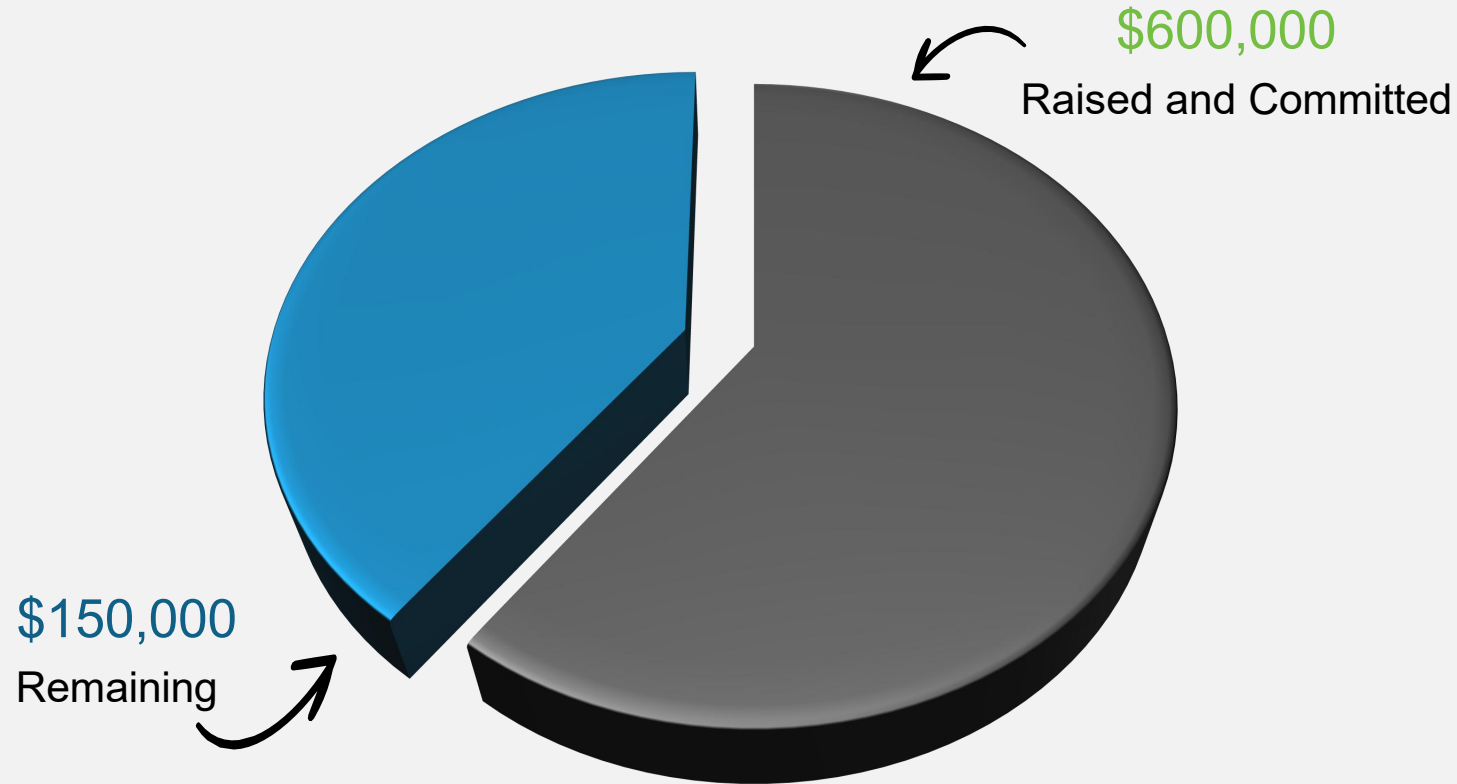

OUR GOAL

\$750,000

By Opening Day

These funds ensure the Center opens complete, functional, and welcoming on day one.

Join Us In **Finishing The Job**

This is a public–private partnership at its best.

Together, we can open the doors to a place of community, connection, and possibility; for today's youth and for generations to come.
